

ACCELERATION SENSOR

Linker Kit expansion board for measurement of acceleration and motion

With this Linker Kit board a 3 axis measurement (Triple Axis Accelerometer) is possible. The measurement data is given as a directly processable voltage value. So movements of plus/minus 3G are measurable.

KEY FEATURES

Dimension	21 x 16 x 11 mm
Function	Accelerationsensor
Scope of delivery	LK-Accel

TECHNICAL FEATURES

Sampling	3 Axis
Voltage Supply	3 - 5 V
Power Supply	~ 350µA
Shock Survival	10000g
Measuring Range	-3 to 3G

ADDITIONAL INFORMATION

Operating Temperature	-55 to 125°C
Storage Temperature	-65 to 150°C
Article No.	LK-Accel
EAN	4250236809731
Duty No.	84733020
