

# MB-CONN02

micro:bit breakout board

This sensor shield helps you connect multiple sensors to your micro:bit. All IO pins are routed out via the 3-pin interfaces, each together with a GND and 3 V pin. This makes it easy to connect circuits with jumper wires. You can also connect the supply voltage for your micro:bit to the 3 V and ground pins via the breakout board.

## MAIN FEATURES

Function	Easy and variable sensor installation for the micro:bit
Several possible connections	Crocodile clips, jumper wires or fixed by solder
Special features	Each data pin is routed out with separate GND and 3V pins
Dimensions	76 x 63 x 12 mm
Items delivered	micro:bit Breakout board

## FURTHER SPECIFICATIONS

Supply voltage	3 - 3.3 V DC
Pin pitch	2.54 mm
