RASPBERRY PI CASE IN SNES-DESIGN
High-quality Raspberry Pi case in world-famous SNES design

This case was designed in the style of the world-famous SNES console and is compatible with the Raspberry models from version B+.

The Raspberry Pi's connectors are made accessible in the appropriate places by the adapter boards built into the housing.

A power LED and two functional buttons for power and reset are also integrated, which trigger a safe shutdown and safe reset via script installation.
