

# USB-SCHNITTSTELLENWANDLER

SBC-TTL-RS485

## 1. GENERAL INFORMATION

Dear customer,

thank you very much for choosing our product.

In following, we will introduce you to what to observe while starting up and using this product.

Should you encounter any unexpected problems during use, please do not hesitate to contact us.

### 1.1 ADVANTAGES TO RS232

In comparison to the RS232 Interface, the RS485 Interface enables serial communication over longer cables and with increased transmission speed.

The USB interface converter serves as a RS485 interface which is connectable via USB.

The USB interface converter is needed because modern built PCs do not have a RS485 interface anymore.

## 2. CONNECTION

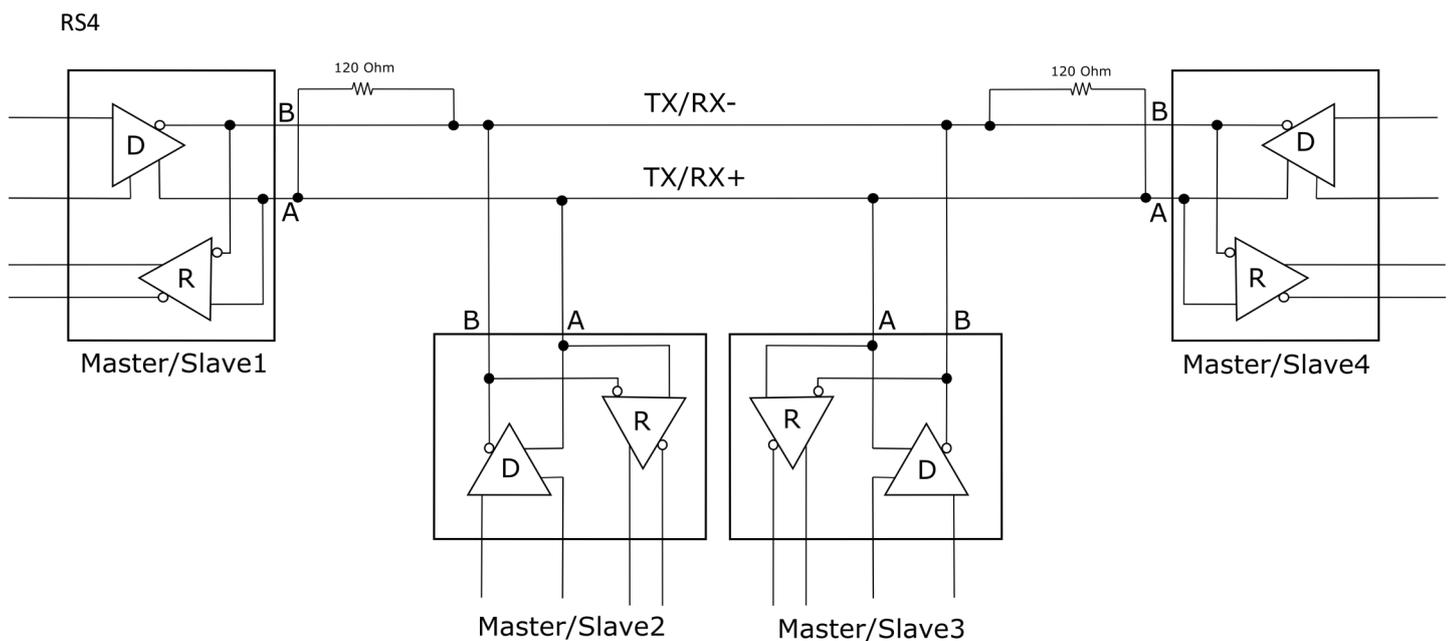

Since in contrast to the RS232 interface, the RS485 interface is a bus system, several master/slaves can be connected (as stated below in the schematic image).

You have to connect the A and B wiring of min. 1 master and 1 slave to be able to use the RS485 interface.

The PCB of our device shows the following description on the backside (like shown on the picture).

Our RS485 interface does not require a driver installation with modern operating systems as those are preinstalled.

Please mind that both cables must be of the same length.

### 3. ADDITIONAL INFORMATION

Our information and take-back obligations according to the Electrical and Electronic Equipment Act (ElektroG)

#### Symbol on electrical and electronic equipment:

This crossed-out dustbin means that electrical and electronic appliances do not belong in the household waste. You must return the old appliances to a collection point.

Before handing over waste batteries and accumulators that are not enclosed by waste equipment must be separated from it.

#### Return options:

As an end user, you can return your old device (which essentially fulfils the same function as the new device purchased from us) free of charge for disposal when you purchase a new device.

Small appliances with no external dimensions greater than 25 cm can be disposed of in normal household quantities independently of the purchase of a new appliance.

#### Possibility of return at our company location during opening hours:

Simac GmbH, Pascalstr. 8, D-47506 Neukirchen-Vluyn, Germany

#### Possibility of return in your area:

We will send you a parcel stamp with which you can return the device to us free of charge. Please contact us by e-mail at [Service@joy-it.net](mailto:Service@joy-it.net) or by telephone.

#### Information on packaging:

If you do not have suitable packaging material or do not wish to use your own, please contact us and we will send you suitable packaging.

### 4. SUPPORT

If there are still any issues pending or problems arising after your purchase, we will support you by e-mail, telephone and with our ticket support system.

E-Mail: [service@joy-it.net](mailto:service@joy-it.net)

Ticket system: <http://support.joy-it.net>

Telephone: +49 (0)2845 98469-66 (10-17 o'clock)
